Does your troop need to make advance reservations?

Yes, the response to this program has been overwhelming, and the available eight (8) program time slots are filling up rapidly.

Although we will do our best to accommodate walk-ins, each presentation will be limited to approximately 15 - 20 participants, and once that number is reached, there will not be additional seating, nor additional presentation materials, available - so walk-ins may be turned away. It is best to make an advance reservation.
